Evaluation and Analysis Experience

- August 2004–Present. Research Associate, Vanderbilt Center for Evaluation and Program Improvement, Peabody College, Vanderbilt University, Nashville, TN. Perform cost-effectiveness analyses on projects and grant proposals; statistical data analysis, coordination of data manipulation of longitudinal data; preparation of result sections, and presentation of research results in conferences.
- Oct 2001- July 2004. Research Associate, Vanderbilt Institute for Public Policy Studies (VIPPS), Vanderbilt University, Nashville, TN. Analysis on the relationship between children's mental health and primary caregiver's labor supply. Statistical data analysis, data manipulation of longitudinal data; preparation of result sections, and presentation of research results in conferences.
- 2000-2001, Principal Investigator, FUSADES, El Salvador. Conducting research on Latin American Development issues. Write grant proposals. The Inter-American Development Bank awarded a grant to study the impact of the geographic exclusion on individual's labor market outcomes. I used a Household Rural Panel Salvadoran data to study the mechanisms that leads to women's social and geographic exclusion and its consequences on their labor force participation decision, sector of employment, and labor income.
- 2000- Sep 2001, Consultant, Center for Mental Health Policy, VIPPS, Vanderbilt University

Nashville, TN. Perform econometric analysis and marketing evaluation including problem identification, statistical analysis using SAS, report preparation and result presentation. Conducting research on optimal mailing distribution systems and supporting the customer relationship marketing evaluation division. Cost-Effectiveness analyses on various projects and grant proposals.

- 1998-July 2000, Post-Doctoral Fellow in Research Evaluation, Vanderbilt University, Nashville, TN. Econometric analysis of individual longitudinal data for various projects such as the Fort Bragg “Continuum of care” Longitudinal Evaluation, the Innovative Children’s Mental Health Services project (Stark County, Ohio), Cooperative Agreement for CMHS/CSAT Collaborative Program on Homeless Families, and providing econometric analysis to a large retail-department store to determine mailing effectiveness. Write reports and co-authored articles for publication.
- 1996–1998, Research Assistant, Vanderbilt University, Nashville, TN. SAS programmer, data management, assisting in statistical analysis for large individual longitudinal data.
- Summer 1996, Consultant in Labor Economics, Inter-American Development Bank, Washington, D.C. Study the labor market of El Salvador and provide the bank terms of reference on basic outline, methodology, and key measurements any labor market analysis should include. The bank wanted to encourage other researchers to use a standardized methodology to facilitate later cross-country comparisons. The final report was published as “The Urban Labor Market in El Salvador, 1980-1995.”
- 1990–1991, Advisor to the Minister of Economy, Ministry of Economy, San Salvador, El Salvador. Participate in the elaboration of Industrial Recovery Program to promote the industrial sector. A commission was created for this whole purpose; the commission had representatives from the Economic Commission for Latin American and the Caribbean (ECLAC), the private industrial sector, the academia, government representatives, and workers groups. Actively participated in the negotiations between Honduras and El Salvador to re-install the bilateral commerce activities between both countries on sensitive industrial and some agro products that were identified in the recovery plan.
